

**Amendment C375 Pro Forma Submissions**

No.	Name	Address	Pro forma Submission
342	Amenah McDonald	Coogee Court Barwon Heads	<p><b>Submission re Amendment C375 - Barwon Heads structure plan. I support the unambiguous and well-reasoned decision to retain the settlement boundary in its current location. Amendment C375 upholds and implements the principles of recent state and local strategic planning and policy documents and its implementation will ensure that:</b></p> <p>The settlement boundary is retained in its current location and we continue to meet our international Ramsar obligations which require Australia to protect the ecological integrity of the Murtnaghurt Lagoon and Lake Connewarre complex including the rare and endangered plants and animals that visit there. These areas are of high conservation significance and are already under threat. All relevant reports and strategic planning at federal, state and local government levels, particularly the Victorian Coastal Strategy (2014) support the protection of this important environmental asset.,</p> <p>Barwon Heads is recognised as a coastal village located within a sensitive environment and significant landscape setting (Clause 11.09 G21Regional Growth Plan 2013). Residential urban land supply will be considered at the municipality level not on a town-by-town basis (Clause 11.02). Barwon Heads is not a designated growth zone, unlike Armstrong Creek (65,000) and Ocean Grove (20,000) that are only 5 minutes from Barwon Heads (G21 Regional Growth Plan 2013).</p> <p>We retain a diverse network of coastal settlements that are sustainably developed and identify a clear settlement boundary (Victorian Coastal Strategy 2014). Rural and coastal environments are protected, non-urban breaks between settlements are maintained and the individual character, identity and role of each Bellarine township is preserved (Clause 11.05-2 Bellarine Localised Planning Statement). Environmental areas including remnant vegetation are protected and enhanced and stormwater runoff is reduced (Clause 21.05),</p> <p>Threats posed by climate change on low lying coastal locations such as Barwon Heads are considered in strategic planning (Clause 11.07 Victorian Coastal Strategy 2014).</p> <p>Given the extent of broadhectare land supply in the municipality and Bellarine Peninsula the Barwon Heads Structure Plan need not be reviewed for at least 14 years (Barwon Heads Structure Plan 2017, p117).</p>
